

Success!

Date: May 2010

Name: Bobby

Condition: Low Back Pain and Neck Pain

I had been experiencing pain in my lower back and in my neck on and off for four years, and I just got sick of it. So I finally decided to do something about it. That's when I came to Doctor Crowder.

The doctor decided to start me off with spinal decompression in addition to chiropractic adjustments. After about five months of regular chiropractic care, I have been relieved of my pain. Finally, after four years!

The staff has always been friendly and very caring towards me, and I would definitely recommend Crowder Specific Chiropractic- they're the best in town!
