

Success!

Date: April 2010

Name: Jenny

Condition: Neck and Back Pain

In my first round of pain, I saw a doctor for postural orthopedics. Though helpful, this other doctor was just too expensive.

This round of pain, I came to Doctor Crowder. In these five months of care, I have come to feel 100% better, stronger, and wiser! At Crowder Specific Chiropractic, I wasn't just another number or patient, but Doctor Crowder and his staff knew my name and how to help me in practical ways. They were welcoming, kind, friendly, knowledgeable and helpful!

I would recommend Doctor Crowder because he's a good doctor who has your best interest at heart. He's not after your money, but to help you and give you knowledge about making life long improvements.
