

Success!

Date: June 2010

Name: Joyce
Condition: Mid-Back Pain

The pain in my back kept me down. I took some things for the pain, but it just wasn't cutting it.

After three months of suffering, I decided to come to Crowder Specific Chiropractic. Ever since I started my treatment, I have been feeling better.

The staff really makes me feel like they care about their patients.

I would recommend Doctor Crowder to others because my problems have improved and I think others' problems will too.
